OBJECTIVE

Frontend Software Engineer with 3+ years of experience building **responsive, accessible, and scalable web applications** using **React.js, JavaScript (ES6+), and modern frontend workflows (Webpack, Babel, ESLint)**, seeking to contribute innovative UI solutions.

SKILLS

Technical Skills	React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Webpack, Babel, ESLint.
Database	SQLite, MongoDB
Version Control:	Git, GitHub, Git Bash
Libraries & Tools:	Axios, Redux Toolkit, React Router, Bootstrap 5, NPM, Babel, Jira, Material UI , Context API
Testing:	Jest, React Testing Library, CI/CD
Backend Integration:	RESTful APIs, Axios, Node.js, Express.js
Others:	Responsive Design, Accessibility, Reusable Components, Agile, SDLC.

EXPERIENCE

Software Developer (Frontend) Pwc (PricewaterhouseCoopers),	Sept 2022 - Present <i>Hyderabad, India</i>
<ul style="list-style-type: none">• Built responsive, accessible, and high-performance web and mobile applications using React.js, React Native, and TypeScript, following Agile and SDLC best practices.• Led frontend integration with RESTful APIs, implemented unit testing with Jest and React Testing Library, and improved code reliability and maintainability by 40%.	

PROJECTS

PIF (Public Investment Fund). Developed **responsive and accessible web modules** (User Profile, Employee Directory, Work Hour Tracker) tailored for internal organizational use, enhancing user experience and streamlining access to employee information. Build **reusable components**, Integrated backend **RESTful APIs** for real-time employee data fetching, **data-visualization and updates, ensuring data consistency and performance**.

Aditya Birla DMS Mobile App. Developed a **scalable React Native E-commerce mobile application architecture with deep linking**, integrated **CashFree Payment Gateway** for secure transactions, and implemented **background geolocation** for seamless location tracking. The project focused on building **reusable components**, reducing API response time by 25%, and maintaining a smooth user experience.

Axis Bank Application Build a **budget management system**, created a **profile management** interface using custom themes and bottom sheets, and integrated external navigation to the official bank website. Built a **unified design system** to enhance **UI consistency and reusability** across multiple platforms.

HCG hospital Management Application Developed a secure patient portal using **React.js, TypeScript, and Material UI**, featuring **PIN-based authentication, responsive and accessible design, and infinite scrolling**. Integrated **RESTful APIs** and optimized performance using **Webpack and lazy loading**.

EDUCATION

B.Tech in Electrical and Electronics Engineering , RVR & JC College of Engineering, Guntur	2019
